

The public air-waves should only be used for one-sided propaganda pieces, and out-right lies, when the programs are so identified as advertisements, or as clear opinion-pieces. I am disheartened and disgusted by the attacks on our democracy by groups like Sinclair Broadcasting and Swift Boat Veterans for Peace. If the Anti-Kerry special is show, it ought to be clearly labelled as an advertisement and it should be followed by "Going Up River", a beautiful documentary about a patriot, John Kerry.
